

SAFE ZONE

The green box denotes the Safe Zone. The red section denotes the Bleed Area. Anything in the bleed area has the potential of not showing up on the final product. Please be mindful of where you have important information within your design to ensure the end result is satisfactory.

The print of this product goes all the way to the bottom of the mug. This is why we have a bleed area denoted in the template.

The product has a full wrap print area, however there is a 3/4 inch blank gap between the handle and start/end of the print - Please keep this in mind when designing and selling this product.
