

The entire template is the design area. Please use the same template for the inside and outside of the bracelet.

Your design will be laser annealed into the bracelet. Please remove/hide the template layer before saving your file.

You must upload a PNG file that has transparency. Any solid pixel within your design will be etched on the final product and represented in the mockup images.

**DESIGN AREA**

Please refer to the Product Design Guide on the bracelet upload screen

for a more detailed description about the template and product.
